

## **Mo**

I have a dog named Mo  
She's my very best friend  
When I got home from school today  
She was gone and I couldn't find her and I didn't know what to do

So I went into the backyard, out into the garage  
I looked under the car and under the shelf  
She was gone and I couldn't find her and I didn't know what to do  
(spoken ) And so I had to go and call that dog

### **Chorus**

Where did you go Mo  
Where did you go Mo  
Where did you go Mo  
I've been looking for you

So I went into the front yard where Mo is usually playing  
I looked up the street and down the street  
She was gone and I couldn't find her and I didn't know what to do  
(spoken) And so I had to go and call that dog again

### **Chorus**

Where did you go Mo!  
Where did you go Mo!  
Where did you go Mo!  
I've been looking for you

So I went into the kitchen where Mo is usually eating  
I looked under the table and under the sink  
She was gone and I couldn't find her and I didn't know what to do  
(spoken) And so I had to go and call that dog again

### **Chorus**

So I went into my bedroom where Mo is usually sleeping  
I looked under my bed and under my pillow  
She was gone and I couldn't find her and I didn't know what to do

(spoken) But just then I heard the strangest sound. It was coming from my closet and it sounded like this:  
(make puppy sounds) I crawled over to the closet, I opened the door and there was Mo lying in a  
cardboard box on the floor. Panting. All of a sudden the funniest thing crawled out from underneath her. It's  
face was all wrinkled up and it's eyes were closed and it was making little sounds (make puppy sounds).  
Then there was another one (more puppy sounds). And another (more puppy sounds). You know what  
was there? Four puppies! They were so cute. I said Mo those puppies are so cute> But didn't you hear  
us? We've been calling you all day long just like this"

### **Chorus**
